TOT DEMAND	_____

**NON-POTABLE
DEMAND**

MAXIMUM IRRIGATION FLOW RATE (COMPLETE PG 3) _____ **GPM**

ARE FIRE SPRINKLERS REQUIRED? _____ **Y / N**

IF YES, WHAT IS THE MAXIMUM FLOW RATE REQUIRED _____

(Attach Fire Sprinkler Flow Calculations from Engineer)

OTHER NON-POTABLE DEMAND _____ **PSI**

WHAT IS APPROX DISTANCE BETWEEN PROPOSED METER AND RESIDENCE? _____ FT

WHAT IS APPROX ELEVATION DIFFERENCE BETWEEN PROPOPOSED METER & HOUSE? _____ FT

IN MAKING APPLICATION TO MONTECITO WATER DISTRICT FOR THE WATER METER DESCRIBED HEREIN, I AGREE AS FOLLOWS:

1. I am a legal owner of the property identified by the service address above or an authorized agent of the owner with authority to enter into a legally binding agreement on behalf of the property owner.
2. Owner agrees that the District shall not be held responsible for inaccurate meter size determined based on information provided by owner or authorized agent that is incomplete or incorrect.
3. Owner agrees to pay any and all District fees and costs associated with this application, including but not limited to the legal fees and costs associated with litigation arising from the processing of this application or purchase of a water meter to the subject property.
4. Owner agrees to defend and indemnify the District and its officers, employees and agents, and will hold them harmless from any and all liability arising from the approval of this application and/or provision of service as requested.
5. I certify that all the information provided in this application is true and correct to the best of my knowledge.

IRRIGATION WATER USE DEMAND ESTIMATE

Please read the following instructions and then complete the table below. If you have questions, please call Laura Menahen in the Engineering Department at 805-969-2271.

If your irrigation system is divided into stations, only provide flow information for the highest flow rate station or multiple stations that are on simultaneously. Typically, a lawn area will require a higher flow rate than shrubs or perennials.

For only the highest flow rate station/stations, list the type and number of sprinkler heads, emitters, low volume mini-sprays etc. and the corresponding flow rate for each type in gallons per minute or gallons per hour. This information can be obtained from your landscaper, gardener, landscape architect or an irrigation system supplier.

Please note that flow rates vary among different make and models of sprinkler heads.
