A Reliable Supply Since 1921

Dear Visitor: Our community is saving water due to drought. Here's how you can help:

- Turn off taps and hoses when not in use.
- Don't let the water run while brushing teeth or shaving.
- Keep showers short and / or limit the amount of water used for baths.
- Only wash laundry and dishes with full loads.
- Cover spas (or swimming pools) when not in use to reduce water loss due to evaporation.
- Report drips and leaks as soon as they appear.

Enjoy Your Stay!
